

SCAM ALERT:

Auto Sale & Repair Fraud

Arizona Attorney General
Mark Brnovich

Scam at a glance:

Auto dealerships and repair shops assist consumers with their vehicle needs; however, some will purposely mislead or defraud consumers about the terms of a purchase or vehicle repair.

Whether you are buying a vehicle or searching for a reputable mechanic, it is always important to do your research.

Warning Signs:

- Being rushed to sign paperwork.
- Contract terms are different than what the dealer promised.
- Salesperson suggests you take the vehicle home before financing is approved.
- Not allowing you to see the parts needing repair.
- Using jargon or terminology that you do not understand.

Protect Yourself: Buying a Car

- Research the value of the car before negotiating the price.
- Always negotiate primarily based on the actual price of the vehicle, never the monthly payment.
- Do not sign a contract with blank spaces.
- Check financing rates with your bank or credit union before shopping for vehicles.

Getting Repairs

- If possible, get several written quotes before any major repair.
- Get written estimates identifying the problem and estimated charge.
- Do not pay for anything you did not authorize.
- Do your homework. Get information about repair shops from the Better Business Bureau.
